About Me

Hi, I'm Aryan Kumar. I design and build digital experiences that not only look good but feel easy and enjoyable to use. With **1 year of experience** in **UI/UX design**, I love turning ideas into clean, user-friendly interfaces.

Experience

UI/UX Designer

May 2024 - Present

DeviceDisk, Delhi

- Crafted user interfaces for **10+ projects**, delivering custom-designed websites spanning **business, educational, e-commerce, informative, and B2B websites**.
- Mapped user interactions with paper wireframes and brought them to life in **Figma** as high-fidelity mockups and prototypes.
- Coordinated side-by-side with clients and developers to make sure the designs looked great and could be built without issues.
- Translated high-fidelity prototypes into functional, responsive website for a B2B website using **HTML, CSS, JavaScript, and Bootstrap**.

Projects

Sutramglobal

[Case Study](#)

- Collaborated closely with the client to create a sleek monochrome design with subtle grey accents that reflected the brand's elegance and boosted user engagement.
- Designed a smooth cart-to-checkout experience with features like in-cart quantity updates, real-time subtotals, and easy address management—leading to **5 orders in the first month** after launch.

The Future Masters

[Case Study](#)

- Designed the homepage for art gallery with a sleek dark green color scheme and elegant Cinzel font, giving it a modern yet timeless feel.
- Created user-friendly sections like a banner slider, curated art categories, and "Artist of the Day" to highlight emerging Indian talent and keep visitors engaged.
- Added a social media spotlight and blog to connect with art lovers and build a community around contemporary Indian art.
